1. ABOUT EA
ABOUT EA

EA is an association of National Accreditation Bodies in Europe.

EA’s members are officially recognised by their national Governments to assess and verify Conformity Assessment Bodies (CABs).

CABs are organisations that carry out evaluation services such as certification, verification, inspection, testing and calibration.

EA is responsible for harmonising accreditation within Europe, aiming to reduce trade barriers and protect health, safety and the environment.
ABOUT EA – BASIC FACTS

Recognised by the European Commission as the European accreditation infrastructure;

Not-for-profit association of nationally recognised Accreditation Bodies;

Established in 1997 and registered in NL in 2000;

49 Members;

44 of them are signatories to the EA MLA;

Permanent Secretariat of 9 persons.
ABOUT EA
EA’S MISSION

The EA Strategy 2025 defines EA’s mission as follows:

“To ensure confidence in accredited conformity assessments results through harmonized operation of accreditation activities in support of European and global economies.”
ABOUT EA – EA’S MISSION

Defining, **harmonizing and building consistency in accreditation in Europe**, by ensuring common interpretation and application of the standards used by its members;

**Ensuring transparency** of the operations (including assessments) performed and results provided by its members;

Maintaining a **multilateral agreement on mutual recognition** between accreditation activities and reciprocal acceptance of accredited conformity assessment services and results;
ABOUT EA – EA’S MISSION

Managing a peer-evaluation system consistent with international practices;

Acting as a technical resource on matters related to the implementation and operation of the European policies on accreditation;

Cooperate with the European Commission and other European and international stakeholders;

Develop accreditation criteria and guidelines supporting harmonisation of practices.
The **EA Strategy 2025** defines EA’s vision as being “a reference in the world for accreditation that enables an open and global market for competitive business and providing reassurance to consumers in a sustainable society”.

To achieve EA’s vision, **3 strategic objectives** are set out in the Strategy:

- Good governance to deliver consistent and sustainable results;
- Close cooperation with regulators and stakeholders to strengthen accreditation at the European and international level;
- Continue to develop accreditation to support innovation and growth in existing and new areas.
EA’s core values are developed out of EA’s mission and vision, highlighting the expected behaviours and skills on which all work of EA is based. The core values support the implementation of the strategy and the basis of EA, enabling the membership organization to speak with one voice and to reach the desired position in 2025.

3. EA’S ROLE IN EUROPE
EA’S ROLE IN EUROPE

As the official guardian of the European accreditation infrastructure, EA has the overall strategic objective to safeguard the value and credibility of accreditation and conformity assessment services delivered by its Members and accredited Conformity Assessment Bodies within the European market.

EA’s role in supporting the effective operation of the Single Market is recognised by:

- Regulation (EC) No 765/2008,
- the General Guidelines for cooperation between EC, EFTA and EA,
- The Framework Partnership Agreement signed with the European Commission and EFTA.
EA AS THE EUROPEAN ACCREDITATION INFRASTRUCTURE

EA has been **formally recognised** as the body responsible for the European accreditation infrastructure in Regulation (EC) No 765/2008 on accreditation, Article 14, paragraph 6.
In accordance with Article 14, paragraph 2 of Regulation (EC) No 765/2008, an agreement has been concluded between EA and the European Commission (EC) and the European Free Trade Association (EFTA) to specify, inter alia, EA’s detailed tasks as well as funding and supervision provisions.
Regulation (EC) No 765/2008 provides a legal framework for the provision of accreditation services across Europe

The Regulation – applicable within the European Economic Area (EEA)¹:

- strengthens EA’s role in both voluntary and regulated sectors,
- places an obligation on EEA Member States to accept results issued by the conformity assessment bodies accredited by (EEA) EA MLA signatories,
- strengthens the use of accreditation as a basis for notification.

EA is **enhancing its communications with the European Commission:**

- EA is permanent observer at the **Expert Group on the Internal Market for Product (IMP) on accreditation and conformity assessment**
- DG GROW is EA major contact in the European Commission (EC)
- For certain specific activities, EA is collaborating directly with the following **EC Departments (DGs):** AGRI, CLIMA, Connect, ENER, ENV, NEAR, FISMA, SANTE, INTPA, JRC, JUST, MOVE, TRADE
- EA provides information to **ENISA, the EU Agency for Network and Information Security,** about accreditation and the European Accreditation Infrastructure to support the preparation of the EU Cybersecurity Certification Framework
- EA collaborates with the **European Union Agency for Railways (ERA)** concerning railway safety
Signed at the EU-Canada Summit on 30th October 2016, the Comprehensive Economic and Trade Agreement (CETA) is a trade agreement, designed to strengthen economic relations and develop business between the European Union and Canada.

CETA includes a Protocol on the Mutual Acceptance of the Results of Conformity Assessment (the CA Protocol). This Protocol provides mutual recognition of European and Canadian ABs and CABs results based on acceptance of each other’s accredited certificates.
CETA

To support the implementation of the Protocol, a Bilateral Cooperation Agreement (BCA) between the European co-operation for Accreditation (EA) and the Standards Council of Canada (SCC) has been established.
The BCA covers inter alia:

- exchange of relevant information on matters regarding the CA Protocol, including standards, technical regulations, and conformity assessment procedures, as well as information on the application and interpretation of criteria for the assessment of conformity assessment bodies;
- exchange of experts for on-site assessments to conformity assessment bodies; mutual information on the progress of work related to activities and the development of the cooperation.

4. THE EA MULTILATERAL AGREEMENT (EA MLA)
EA Multilateral Agreement (EA MLA) is a signed agreement between the National Accreditation Bodies, which have been successfully peer evaluated by EA.

The signatories recognise and accept:

- the equivalence of the accreditation systems operated by the signing members;
- and the reliability of the conformity assessment results provided by Conformity Assessment Bodies accredited by the signing members.

Note: Article 11 of Regulation (EC) No 765/2008

National authorities shall recognise the equivalence of the services delivered by those national accreditation bodies which have successfully undergone peer evaluation by EA, and thereby accept the accreditation certificates of those bodies and the attestations issued by the conformity assessment bodies accredited by them.
The MLA provides a framework to realize the objective ‘Accredited once, accepted everywhere’.

The MLA creates confidence in certificates and reports issued by accredited conformity assessment bodies.

The MLA eliminates the need for suppliers to be certified in each country where they sell their products or services.
The scope of the EA MLA covers the following conformity assessment activities:

- Testing
- Calibration
- Medical Examination
- Inspection
- Biobanking
- Products Certification
- Person Certification
- Validation and Verification
- Management Systems Certification
- Proficiency Testing
- Reference Materials Production
NUMBER OF ACCREDITATIONS DELIVERED BY EA MEMBERS UNDER THE EA MLA AT 31.12.2023

- 3,437 accreditations in Calibration
- 16,621 accreditations in Testing
- 3,928 accreditations in Medical examinations
- 2,103 accreditations in Products Certification
- 1,438 accreditations in Management Systems Certification
- 859 accreditations in Persons Certification
- 6,543 accreditations in Inspection
- 248 accreditations in Proficiency Testing
- 74 accreditations in Reference Materials Production
- 188 accreditations in Validation & Verification
SEARCH FACILITY

A search system enables everyone to seek out information about accredited Conformity Assessment Bodies (CABs) directly on the websites of EA Members.

It is available from the EA webpage listing “Directory of EA Members and MLA Signatories”. Customers to CABs or third parties can click on “Scopes” on the NAB window of a specific country and see the accreditation activity (blue and yellow boxes) offered by this NAB under the EA MLA. The accreditation activity is linked to the accredited CABs concerned.

EA and its member National Accreditation Bodies invest significant effort and resource to maintain the integrity and robustness of the EA MLA through a peer evaluation process. The on-site evaluation is conducted by a peer-evaluation team entrusted with the task to determine accreditation bodies’ compliance with the requirements laid down in:

- **ISO/IEC 17011**
  internationally accepted standard for accreditation bodies

- **Relevant standards for conformity assessment bodies** including any additional requirements (e.g. by the EC)

- **Regulation (EC) No 765/2008**

6. BENEFITS OF ACCREDITATION
WHAT IS ACCREDITATION?

The accreditation process determines the technical competence and integrity of organisations that offer testing, examination, verification, inspection, calibration and certification services (collectively known as conformity assessment).

Accreditation operates in the public interest across all market sectors, providing a transparent and impartial assessment of these services against internationally recognised standards and other national or sectoral requirements.

<th>Minimises product failure or recalls</th>
<th>Facilitates cross border trade</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Despite a complex global marketplace, accredited conformity assessment services give us confidence through ensuring consistently high standards in the quality of products or services purchased.</td>
<td>• Product testing carried out by a reliable independent organisation will minimise products failing or potential recalls.</td>
<td>• Accreditation is of major importance for the development of Europe’s internal market, as this facilitates cross border trade and eliminates barriers to trade.</td>
</tr>
</tbody>
</table>
BENEFITS FOR BUSINESSES

**Accurate** calibration, measurement, and testing, performed in accordance with best practice, can:

- limit errors and product failure;
- control production costs;
- and contribute to an innovative environment.

**Essential tool** for decision-making, risk management, and supplier selection.

Provides a **competitive advantage** in domestic markets through access to public sector contracts, and also overseas with greater acceptance in export markets.
Accreditation…

• is the preferred mechanism for identifying competent bodies to implement government policies and regulations aimed at safeguarding the public and building public confidence in activities that impact on such fields as health, welfare, security, the environment, education, and financial services.
BENEFITS FOR CONSUMERS

Accreditation...

- helps to increase access to goods and services of consistent and reliable quality and safety,
- increases confidence in certified products and services, tests, examinations, and measurements.
