1 INTRODUCTION

The EA Multilateral Agreement (EA MLA) main purpose is to provide confidence to the marketplace and all interested parties in reports and certificates issued by conformity assessment bodies¹ accredited by national accreditation bodies, who have signed the EA MLA.

2 EA MULTILATERAL AGREEMENT (EA MLA)

Those EA Members accreditation bodies that are signatories to the EA Multilateral Agreement (EA MLA) have been evaluated by peers and demonstrated their competence. The specific agreement signed by each signatory accreditation body describes its scope of competence. The scopes may include accreditation of laboratories, accreditation of certification or validation and verification bodies and/or accreditation of inspection bodies.

The peer evaluation system for EA members provides confidence that accreditation is operated in a harmonized and consistent way throughout Europe.

The EA peer evaluation system is recognised by the European Commission and by EU/EFTA Member States and it is mandatory for national accreditation bodies to undergo peer evaluation according to Article 10 in Regulation (EC) No 765/2008.

¹ Conformity assessment bodies are: calibration, testing and medical laboratories, and inspection, validation and verification and certification bodies, proficiency testing providers and reference material producers.
