EA REPORT TO IAF/ILAC AND REGIONS
STATUS JANUARY - JUNE 2024
# TABLE OF CONTENTS

I - STRUCTURAL STATUS AS AT JANUARY 2024 3
   1 - EA Membership 3
   2 - Signatories to the EA MLA 3
   3 - EA Recognised Stakeholders 4

II - EA MLA AND PEER-EVALUATION ISSUES 4
   1 - New and remaining signatories to EA MLA scopes 4
   2 - Latest developments relating to EA peer evaluations 5
      2.1 - Peer evaluations in 2024 5
      2.2 - Peer-evaluator trainings 5
   3 - Development of the EA MLA 5

III - STATUS OF EA’S RECOGNITION IN IAF/ILAC 6

IV - STATUS OF EA DOCUMENTS 7
   1 - Documents published since January 2024 7
   2 - Documents under revision 7
   3 - New documents under development 8
   4 - Documents withdrawn since January 2024 8

V - ACTIVITIES TO PROMOTE THE IAF MLA AND ILAC MRA 9

VI - MAJOR OTHER ACTIVITIES/DEVELOPMENTS IN EA 9

VII - EA MEETINGS 13

VIII - EA REPRESENTATIVES IN IAF AND ILAC COMMITTEES 13
I - Structural status as at January 2024

1 - EA Membership

EA has a total of 49 Members.

The complete list of EA Members together with their details and their EA MLA status is available on the EA website at https://european-accreditation.org/ea-members/directory-of-ea-members-and-mla-signatories/.

2 - Signatories to the EA MLA

44 Members are signatories to the EA MLA.

The individual EA Multilateral and Bilateral Agreement Signatories are listed by EA MLA scope on EA-INF/03: Signatories to the EA Multilateral and Bilateral Agreements.

Recapitulative table of signatories by MLA scope
3 - EA Recognised Stakeholders

EA cooperates with more than 40 Recognised Stakeholders, whose complete list is available on the EA website at https://european-accreditation.org/about-ea/ea-stakeholders/

In accordance with EA-1/15: EA Policy for Relation with Stakeholders providing for a formal review every five years, the Recognised Stakeholder agreements with the following organisations have been renewed in May 2024 for the coming five years:

- EFAC (European Federation of Associations of Certification Bodies);
- EFLM (European Federation of Clinical Chemistry and Laboratory Medicine);
- EGOLF (European Group of Organisations for Fire Testing, Inspection and Certification);
- EOQ (European Organisation for Quality);
- EPPO (European and Mediterranean Plant Protection Organisation);
- ERA (European Union Agency for Railways);
- EWF (European Federation for Welding, Joining and Cutting);

II - EA MLA and peer-evaluation issues

1 - New and remaining signatories to EA MLA scopes

Upon decisions made by the MLA Council (MAC) at its 50th meeting held on 24-25 April 2024 in Sofia, Bulgaria, and through electronic ballots carried out in the first semester 2024:

- SAS, the National Accreditation Body (NAB) of Switzerland, became an EAMLA signatory in the fields of proficiency testing provision (EN ISO/IEC 17043) and reference material production (EN ISO 17034).

- ACCREDIA, the Italian NAB, remained an EA MLA signatory in the fields of calibration, testing including medical examinations, inspection, proficiency testing provision, certification of management systems, certification of products, certification of persons, validation and verification (EN ISO 14065 and EN ISO/IEC 17029) and reference material production.

- CYS-CYSAB, the Cypriot NAB, remained an EA MLA signatory in the fields of calibration, testing including medical examinations, inspection and certification of products.

- NAH, the Hungarian NAB, remained an EA MLA signatory in the fields of medical examinations, proficiency testing provision and certification of products.
2 - Latest developments relating to EA peer evaluations

2.1 - Peer evaluations in 2024

For 2024, the MAC scheduled 16 peer evaluations.

7 peer evaluations were carried out as follows by the end of June 2024:

- 5 re-evaluations: FINAS (Finland), ISAC (Iceland), LATAK (Latvia), PCA (Poland) and TURKAK (Türkiye);
- 1 re-evaluation with extension to validation and verification: EGAC (Egypt);
- 1 second part dedicated to testing: IPAC (Portugal).

Further to the application of ARMNAB (Armenia) for becoming a new EA MLA signatory in the fields of calibration, testing, certification of products and certification of management systems, the process of ARMNAB’s new evaluation started in December 2023 has been progressed in 2024 with the document review. The initial evaluation of ARMNAB is planned for the end of 2024.

The remaining 8 peer evaluations to be performed in 2024 are related to ARMNAB (Armenia), ATCG (Montenegro), COFRAC (France), DANAK (Denmark), NA (Norway), NAH (Hungary), SWEDAC (Sweden) and UKAS (United Kingdom).

2.2 - Peer-evaluator trainings

Newcomer training sessions

The next newcomer training session will be held on 3-5 December 2024 in Paris, France.

Refresher training sessions

Three refresher training sessions should take place in 2024.

The first of them, organised on 5-6 June in Brussels, Belgium, was targeted at Team Members authorised in calibration, reference material producers and biobanking.

The second refresher training session will gather on 20-21 November 2024 Team Members authorised in management system certification, persons certification and validation & verification.

The third session will put together on 27-28 November 2024 Team Members authorised in testing, medical examination and proficiency testing providers.

3 - Development of the EA MLA

EA MLA signatory status for EN ISO/IEC 17029

Following the launching of the EA MLA on EN ISO/IEC 17029:2019 in October 2022, the whole of the MLA signatory status in the field of validation and verification have been updated to EN ISO/IEC 17029 by the transition deadline set on 1 June 2024.

Further to those 20 NABs having updated their status by the end of December 2023 — i.e. AA (Austria), ACCREDIA (Italy), BAS (Bulgaria), BELAC (Belgium), CAL (Czech Republic), COFRAC (France), DAkKS (Germany), EAK (Estonia), ENAC (Spain), ESYD (Greece), FINAS (Finland), LATAK (Latvia), NAH (Hungary), PCA (Poland), RENAR (Romania), RvA (The Netherlands), SA (Slovenia), SNAS (Slovakia), SWEDAC (Sweden) and TURKAK (Türkiye) —, the following 5 NABs have indeed updated their EA MLA signatory status in the field of validation and verification in 2024: DANAK (Denmark), HAA (Croatia), IPAC (Portugal), NA (Norway) and UKAS (United Kingdom).
III - Status of EA's recognition in IAF/ILAC

The re-evaluation of EA by IAF/ILAC started in early September 2022 with the evaluation of the EA Secretariat, continued with the evaluation of the scopes of medical examinations, inspection, persons certification as well as validation and verification in 3 NABs, and terminated with the evaluation of the MAC decision-making process at the MAC meeting held in October 2022 in Turin, Italy.

Further to the confirmation by the ILAC Arrangement Council (AC) in December 2023 of EA's continuation as a recognised regional cooperation body of ILAC (see Section V. hereafter), the IAF MLA Committee (MLAC) has confirmed in April 2024 the continuation of EA as a recognised regional accreditation group of IAF, i.e. the continuation of recognition of the EA MLA to the IAF MLA for the accreditation of management system certification bodies (QMS, EMS, FSMS, ISMS, EnMS, MDMS, OH&SMS, FAMI-QS, FSSC 22000) using ISO/IEC 17021-1, product certification bodies (including Global G.A.P. IFA General Regulations) using ISO/IEC 17065, person certification bodies (including IPC) using ISO/IEC 17024, and validation and verification bodies using ISO 14065:2013.

Besides, IAF has updated EA's recognition status for the field of validation and verification to ISO/IEC 17029 on 19 March 2024.

The next re-evaluation of EA is scheduled to begin no later than July 2026.

On 15 February 2024, EA has been recognised for the following sub-scopes under the IAF MLA on product certification (ISO/IEC 17065):

**BRC Global Standard - Food Safety**
- Level 4 – Food Safety, Part III & IV
- Level 5 – Food Safety, Part II

**BRC Global Standard - Agents and Brokers**
- Level 4 – Agents and Brokers, Part III & IV
- Level 5 – Agents and Brokers, Part II

**BRC Global Standard - Packaging Materials**
- Level 4 – Packaging Materials, Part III & IV
- Level 5 – Packaging Materials, Part II

**BRC Global Standard - Storage and Distribution**
- Level 4 – Storage and Distribution, Part III & IV
- Level 5 – Storage and Distribution, Part II

**BRC Global Standard - Gluten Free Certification Program**
- Level 4 – Gluten Free Certification Program, Part III & IV
- Level 5 – Gluten Free Certification Program, Part II

**BRC Global Standard - Consumer Products Personal Care Household**
- Level 4 – Consumer Products Personal Care Household, Part III & IV
- Level 5 – Consumer Products Personal Care Household, Part II
BRC Global Standard - Consumer Products General Merchandise
  • Level 4 – Consumer Products General Merchandise, Part III & IV
  • Level 5 – Consumer Products General Merchandise, Part II

Global G.A.P. Produce Handling Assurance (PHA)
  • Level 4 – Global G.A.P. PHA General Regulations
  • Level 5 – Global G.A.P. PHA CPCCs

On 15 February 2024, EA has been recognised for the following sub-scopes under the IAF MLA on management system certification (ISO/IEC 17021-1):

IAQG (International Aerospace Quality Group)
  • Level 4 – IAQG 9104-1
  • Level 5 – IAQG 9100, IAQG 9110, IAQG 9120

IV - Status of EA documents

1 - Documents published since January 2024

EA-1/15  EA Policy for Relations with Stakeholders
EA-8/01  Guidance on Transfers of Accredited Certification of Persons

2 - Documents under revision

EA-0/06  Format & Layout of EA Documents
EA-0/08  Procedure for EA Management Reviews
EA-1/06  EA Multilateral Agreement. Criteria for Signing. Policy and Procedures for Development
EA-1/13  EA’s Relationship with Accreditation Bodies of Countries not being Members of the EU or EFTA
EA-1/21  EA Internal Procedure for Liaison Activities
EA-1/22  EA Procedure and Criteria for the Evaluation of Conformity Assessment Schemes by EA Accreditation Body Members
EA-2/02  EA Procedure for the Evaluation of a National Accreditation Body
EA-2/17  EA Document on Accreditation for Notification Purposes
EA-3/01  EA Conditions for the Use of Accreditation Symbols, Logos and other Claims of Accreditation and Reference to the EA MLA Signatory Status
EA-3/02  EA Policy for the Accreditation of Certification Bodies Providing Certification of PDO (Protected Designations of Origin), PGI (Protected Geographical Indications) and TSG (Traditional Specialities Guaranteed)
3 - New documents under development

EA-3/01 S1   Rules for Use of the EA MLA Mark  
Note: approved in October 2020; not to be published before the EA MLA mark is formally registered.

EA-X/XX   Guidelines for the Accreditation of Laboratories carrying out Genetic Testing using Next Generation Sequencing (NGS) / Whole Genome Sequencing (WGS) Techniques

EA-4-XX   Guidance on Flexible Scopes for Proficiency Testing Providers

4 - Documents withdrawn since January 2024

None.
V - Activities to promote the IAF MLA and ILAC MRA

The EA MLA Report 2023 released on 14 May 2024 highlights the outcome and actions achieved through the EA MLA during 2023, as well as EA’s recognition in IAF and ILAC through their MLA and MRA — notably the continuation of the EA MLA recognition to the ILAC MRA for the accreditation of calibration and testing laboratories using ISO/IEC 17025, medical testing laboratories using ISO 15189, inspection bodies using ISO/IEC 17020, proficiency testing providers using ISO/IEC 17043 and reference material producers using ISO 17034.

The report is coupled with an EA MLA 2023 Infographic stressing the main facts and figures in 2023. Both are available on this EA webpage.

EA celebrated and promoted the World Accreditation Day (WAD) 2024 entitled “Empowering Tomorrow and Shaping the Future” by publishing a news on the EA Homepage, as did several EA Members through their national website.

For further information, please see EA’s website and social media.

VI - Major other activities/developments in EA

Renewal of the management of EA

At the General Assembly meeting held on 22-23 May 2024, the members of the EA management have been elected or re-elected for a two-year mandate starting on 1 January 2025:

- Members of the Executive Board, responsible for implementing EA governance and financial policies, as well as managing the organisation between the General Assembly meetings and as directed by the General Assembly:
  
  President: Maureen Logghe, BELAC, Belgium
  Vice-President: Cecilie Laake, NA, Norway
  Leopoldo Cortez, IPAC, Portugal
  Jesper Hoy, DANAK, Denmark
  Karine Vincent, COFRAC, France
  Gabriel Zrenner, DAkkS, Germany

- Members of the EA Technical Management Board in charge of coordinating the technical activities of EA, and chaired by the Vice-President:
  
  Vice-President: Cecilie Laake, NA, Norway
  Multilateral Agreement Council Chair: Maria Papatzikou, ESYD, Greece
  Horizontal Harmonization Committee Chair: Kristina Hallman, SWEDAC, Sweden
  Laboratory Committee Chair: Sergio Guzzi, ACCREDIA, Italy
  Certification Committee Chair: Casper van Erp, RvA, The Netherlands
  Inspection Committee Chair: Marek Wilgos, PCA, Poland
Renewal of the EAAB

The EA Advisory Board (EAAB), currently chaired by Miruna Dobre (EURAMET) and vice-chaired by Bruce McGill (CAB College - TIC Council) and Martin Stadler (Industry College - BusinessEurope), gives continuous support to EA work and provides advice to EA on a broad range of issues relating to harmonisation and policy on accreditation. The Board’s composition constitutes a well-balanced representation of the parties which rely on and contribute to the European accreditation system. It is composed of representatives from:

• the conformity assessment community;
• the industry, services and trade;
• the EU Member States’ national authorities;
• European private scheme owners;
• the consumer associations;
• the European metrological institutions;
• the European standardisation organisations;
• the European Commission; and
• the European Free Trade Association (EFTA).

The EAAB’s Terms of Reference provide that the members of the Board are appointed for a period of three years which can be renewed. Because the current mandate will expire in autumn 2024, new nominations or confirmation of renewals from all members are being called for by the EAAB Secretariat until 4 October 2024. The renewal of the EAAB membership should take effect from the beginning of the 52nd meeting on 8 November 2024, when a Chair and two Vice-Chairs will be elected or re-elected.

Start-up of the EA Communication Network

Subsequent to the General Assembly resolution, adopted in May 2023, to disband the Communications and Publications Committee, the Terms of Reference of a new EA Communication Network (CN) as a place for communications professionals to share experiences and best practices, learn new tools and submit to peers any question related to communications and marketing, were approved by EA Members on 21 October 2023.

The whole of EA Members and Recognised Stakeholders nominated by January 2024 about 80 members in the new Communication Network, which held its kick-off meeting remotely on 3 April 2024. Omer Karavelioğlu (TURKAK, Türkiye) was elected as the first convener of the Network.
Finalisation of the EA MLA mark registration

According to **EA Strategy 2025**, EA has been establishing a MLA mark for the purpose of identifying EA MLA signatories and their accredited CABs. After EA Members selected their preferred option for the MLA mark at the General Assembly in November 2019, the previous Executive Committee has been mandated to proceed with the formal registration of the MLA mark as a collective mark of the European Union (EU) in a first stage, and then to extend registration to non-EU countries at the international level based on the Madrid Agreement.

The formal registration as a collective mark of the EU was completed in June 2022.

As agreed in November 2019, the EA MLA mark shall not be used until it is registered in the countries of all EA MLA signatories.

The process for registering the EU mark as an international mark is nearing completion for those EA MLA signatories which are not EU Members: further to EA’s formal application to the World Intellectual Property Organization (WIPO), the EA MLA mark has been successfully registered dated 12 April 2023 as an international collective mark with the WIPO in the non-EU countries of EA MLA signatories. The mark is now examined by the national offices of the 17 countries concerned; notifications may be issued until 18 months after notification of the registration of the EA MLA mark in each country. This means that the full process is expected to be completed by summer 2025, which was confirmed at the EA General Assembly in May 2024.

The application of the EA MLA mark should remain voluntary for NABs signatories of the EA MLA, which will be entitled to use the MLA mark in combination with their logo. Conformity Assessment Bodies (CABs) accredited by a MLA-signatory NAB will have the right to use the MLA mark in combination with the NAB accreditation symbol. The basic principle is that the mark can only be used in a country where it has been properly registered. It means that the mark will be registered (at least) in all the countries of the EA MLA signatories.

Creation of the European Quality Infrastructure Network

On 7 March 2024, the five regional quality infrastructure organisations in Europe, the European Committee for Standardisation (CEN), the European Committee for Electrotechnical Standardisation (CENELEC), the European co-operation for Accreditation, the Association of the National Metrology Institutes in Europe (EURAMET) and the European Cooperation in Legal Metrology (WELMEC) signed a Memorandum of Understanding to create the European Quality Infrastructure (QI) Network.

Through this agreement, the Network partners pledge to collaborate in order to strengthen and promote the Quality Infrastructure in Europe, mainly by:

- raising awareness of QI and its benefits towards industry stakeholders and the European Commission;
- increasing the understanding and visibility of each other’s services and activities;
- sharing information on matters of common interest and opportunities;
- representing the European QI at the international level.
Overall, the signatories are committed to pooling their expertise in the fields of metrology, standardisation, accreditation, conformity assessment and market surveillance with the aim to support and enhance the quality, safety and environmental soundness of goods, services, and processes. The creation of the Network in the context of the European elections has provided the partners with the opportunity to identify policy priorities to strengthen the European quality infrastructure and influence the new EU legislative agenda. The new Network will serve policy makers and industries to meet challenges and expectations brought about by globalisation.

By June 2024, the European QI Network has already held two meetings to address administrative issues and the creation of a website dedicated to the Network.

**EA training and events**

The EA Laboratory Committee organised two train-the-trainer sessions on accreditation of proficiency testing providers (PTP) on 13 and 15 February 2024 in Brussels, Belgium. A total of 55 participants attended the sessions, whose aim was to consider the revision of ISO/IEC 17043:2023 *Conformity Assessment — General Requirements for the Competence of Proficiency Testing Providers* (published in May 2023) and to understand the changes introduced in the standard.

More than 300 participants attended a webinar organised by EA, under the auspices of the European Commission, on 29 February 2024 about the European Blockchain technology for the use in accreditation and certification. This seminar delved into the role of the European Blockchain Services Infrastructure (EBSI) in the context of the European accreditation and certification ecosystem. The discussion focused on the prospective role of EBSI in facilitating the real-time dissemination of the accreditation status pertaining to conformity assessment bodies (CABs). It also addressed the verification of the certification status associated with a myriad of products and services certified within the European Union by CABs. EBSI is a public infrastructure, supported by the European Commission and governed by Member States, which operates on cutting-edge technologies, prominently featuring verifiable credentials, digital wallets, and blockchain. EBSI can be used in the context of any conformity assessment activities, like certification, testing, inspection, or verification. Learn more about EBSI on their [website](https://ebsi.ec.europa.eu).

Besides, further to the adoption of the inaugural EU cybersecurity certification (EUCC) scheme, EA organised two online events, i.e. a conference on 18 April and a workshop on 20 June 2024, together with ENISA, the European Union (EU) Agency for Cybersecurity. Through the development of cybersecurity certification at the EU level, the objective was to harmonise the assessment of cybersecurity levels for ICT (Information Communications Technology) solutions throughout the EU, enabling vendors and service providers to access a broader customer base. The EU Cybersecurity Act as well as the Implementing Regulation on the EU CC scheme and State-of-the-Art documents for accreditation were also analysed and discussed during the workshop. More detailed information is available at the EA [webpage](https://www.european-accreditation.eu).
